Dear [Name]

Type the letter here. Keep the sentences short. Say the number. One idea per paragraph.

This paragraph and the one above use the Normal style, so anything you paste in picks up the right typeface and the right spacing. The header and footer are locked to the page, not to the text, so the letter runs onto a second sheet on its own and the second sheet gets the shorter continuation header automatically.

If you need a heading, use Heading 1. If you need a list, use the bulleted list button. Do not add a logo by hand: it is already in the header.

Yours sincerely

Craig Brewer
Klyara

Second sheet

This page exists so you can see the continuation header. Delete it before you send anything. Everything below the header is ordinary body text and behaves normally.
