Klyara — Account Setup Pack

Copy-paste-ready. Sign up, paste, upload, next.

Every field is written to the platform's actual character limit. Counts shown are the limits, and all copy below is inside them.

Before you start — 5 decisions, made

1. Handle. Use this order, take the first available, then use it *everywhere* for consistency:

```
klyara  →  klyarahq  →  klyara_uk  →  getklyara  →  klyaraback (last resort)
```

Whatever you land on, **write it here and use it on every platform**, even where a better one is free. Consistency beats perfection: @klyarahq everywhere is worth more than the perfect handle on three platforms and a mess on the rest.

2. Display name. Klyara on personal-style platforms. Klyara — Construction Back Office where the field allows more and search matters (LinkedIn, GBP, YouTube, directories).

3. Email for signups. Do **not** use hello@klyara.com — that's your public inbox and it will drown. Create social@klyara.com and use it for every platform registration. One inbox, all the password resets and verification codes in one place.

4. Password + 2FA. Every account into Bitwarden (already in the stack), 2FA on every single one. A hijacked social account for a firm that holds clients' financial data is a reputational event you cannot talk your way out of.

5. Who owns the account. Facebook Pages and LinkedIn Company Pages are owned by a *personal* profile, not by the business. Set both founders as admins from day one. Businesses lose their pages when the one admin leaves.

Canonical brand strings — use these verbatim everywhere

1. Google Business Profile ★ START HERE — verification takes 5–14 days

Business name: Klyara *(Do not add keywords to the name — Google suspends listings for this and suspension is a fortnight of pain to reverse.)*

Primary category: Bookkeeping service **Additional categories:** Accountant · Tax preparation service · Payroll service

Service area: Set as a **service-area business** if home-based. Radius: 15 miles from your target town. Add the 6–8 named towns you actually want to serve.

Description (750 char limit — this is 727):

```
Klyara is the back office for small construction firms. We handle the bookkeeping, CIS returns, VAT reverse charge coding, payroll and Making Tax Digital quarterly filing, so builders can get on with the work.

Making Tax Digital for Income Tax started in April 2026 for sole traders earning over £50,000, and the threshold drops to £30,000 in April 2027. If you are a subcontractor or a small builder, this almost certainly affects you.

We are construction specialists, not general accountants. CIS deductions, gross payment status, domestic reverse charge and retentions are the everyday work here, not the awkward bit at the end.

Fixed monthly pricing from £59. Free discovery call. Free MTD guide and 12 calculators at klyara.com.
```

Services to add (each with its own short description in GBP): Bookkeeping · CIS returns · Making Tax Digital filing · VAT returns · Payroll · Self assessment · Management reports · Invoice chasing

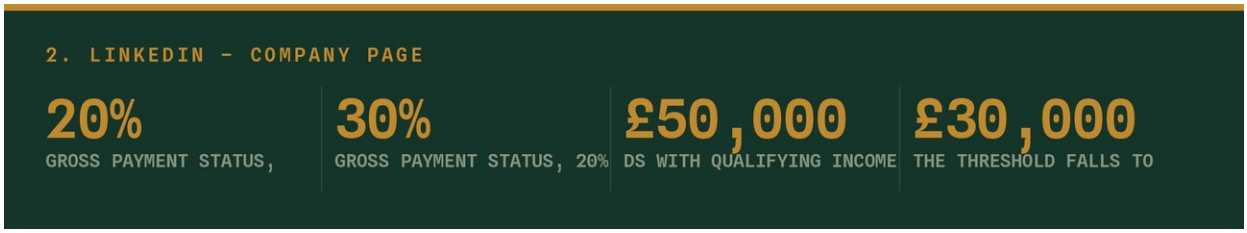

Attributes to tick: Online appointments · Onsite services not required · LGBTQ+ friendly (if true)
Products: Add the four tiers as Products with prices — Solo £59, Start £99, Trade £199, Pro £329.
Photos: logo (klyara-avatar-google-business-512.png), cover (klyara-banner-gbp.png), plus 5+ real photos — Craig, a desk, a laptop showing the portal, a site visit. **Real photos beat stock heavily here.**
Booking link: your Cal.com URL.

2. LinkedIn — Company Page

Name: Klyara **Tagline / slogan (120 char limit — this is 96):**

Bookkeeping, CIS and Making Tax Digital for UK construction firms. Run the jobs. We run the rest.

Industry: Accounting **Company size:** 2-10 employees **Company type:** Privately Held **Website:** https://klyara.com **Specialities (add all):**

Construction bookkeeping, CIS returns, Making Tax Digital, MTD for Income Tax, VAT domestic reverse charge, Construction payroll, Subcontractor verification, Management accounts, Cash flow reporting, Invoice chasing, QuickBooks, Xero, FreeAgent

About (2,000 char limit — this is 1,842):

Klyara is the back office for small construction firms.

Bookkeeping, VAT coding, payroll and Making Tax Digital quarterly filing
— handled, monthly, for a fixed fee. You run the jobs. We run the rest.

WHY CONSTRUCTION ONLY

Most accountants have a handful of building clients and treat CIS as the awkward bit at the end of the month. We do it all day. Gross payment status, 20% and 30% deductions, the domestic reverse charge, retentions, materials splits, subcontractor verification, monthly returns by the 19th — this is the everyday work here, not the exception.

MAKING TAX DIGITAL CHANGED THE RULES

Since April 2026, sole traders and landlords with qualifying income over £50,000 must keep digital records and send HMRC a quarterly update. The threshold falls to £30,000 in April 2027 and £20,000 in April 2028. Qualifying income is gross — before CIS deductions — so a subcontractor invoicing £55,000 and taking home £44,000 after deductions is already in scope.

Annual shoebox bookkeeping stops working the moment HMRC wants four updates a year. We built Klyara for that.

WHAT YOU GET

- A named construction bookkeeping specialist, not a call centre
- Receipts snapped on your phone, straight into the books
- CIS returns filed by the 19th, every month
- A monthly P&L you can actually read
- Quarterly MTD updates handled and filed

- A client portal showing where the business stands, in real time
- Fixed monthly pricing from £59 + VAT. No hourly billing, no surprise invoices.

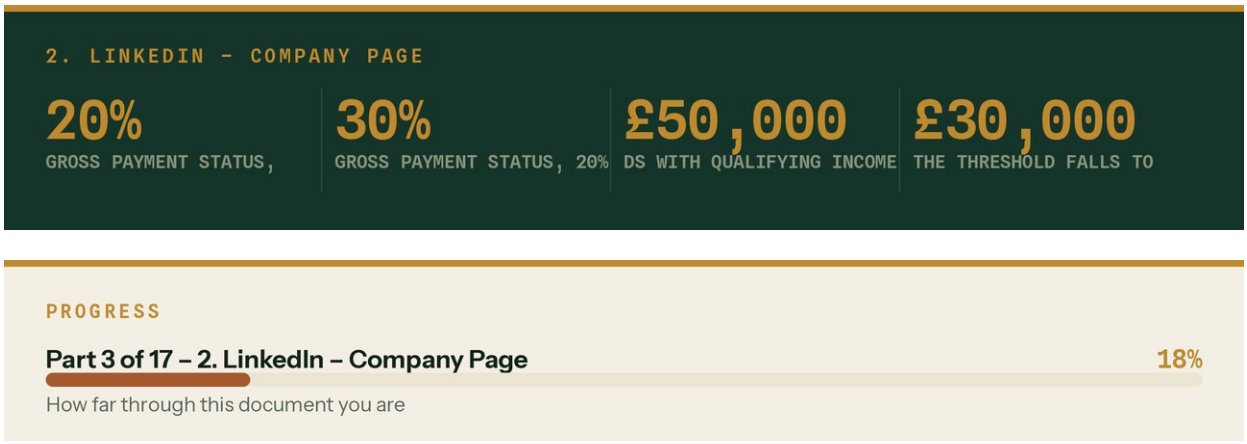

WHO WE WORK WITH

Sole trader subcontractors through to fifteen-person building firms with a PAYE and CIS mix. If you are VAT-registered, running CIS, and losing evenings to paperwork, that is exactly who this is for.

Free MTD guide, free Digital Launch Kit and 12 free calculators — job margin, CIS, VAT, day rate, deadlines — at klyara.com.

Assets: Logo → klyara-avatar-linkedin-512.png · Cover → linkedin-company-1128x191.png **Also do:** create a LinkedIn **Showcase Page** later for "Klyara MTD" if MTD content outgrows the main page. Not at launch.

3. LinkedIn — Craig's personal profile *(this one does the actual work)*

Headline (220 char limit — this is 148):

```
Construction bookkeeping & CIS specialist | Making Tax Digital for builders and subcontractors |
Founder at Klyara — run the jobs, we run the rest
```

About (2,600 char limit — this is 1,394):

```
I do the back office for building firms.

CIS returns, VAT reverse charge, payroll, bookkeeping and now Making Tax Digital quarterly filing.
The paperwork that piles up on the passenger seat and gets dealt with at eleven at night.

Most accountants have a few building clients. I only have building clients. That means gross payment
status, 20/30% deductions, retentions, materials splits and subcontractor verification are the normal
day here — not the bit everyone dreads at month end.

Why now: Making Tax Digital for Income Tax went live in April 2026 for anyone with qualifying income
over £50,000. It drops to £30,000 in April 2027 and £20,000 in April 2028. Qualifying income is
measured gross, before CIS is taken off — which catches a lot of subbies who assume they are under
the line. Once HMRC wants four updates a year instead of one return, the shoebox stops working.

I started Klyara so a builder can snap a receipt on site, forget about it, and get a P&L at the end
of
the month that actually makes sense. Fixed monthly fee. No hourly billing.

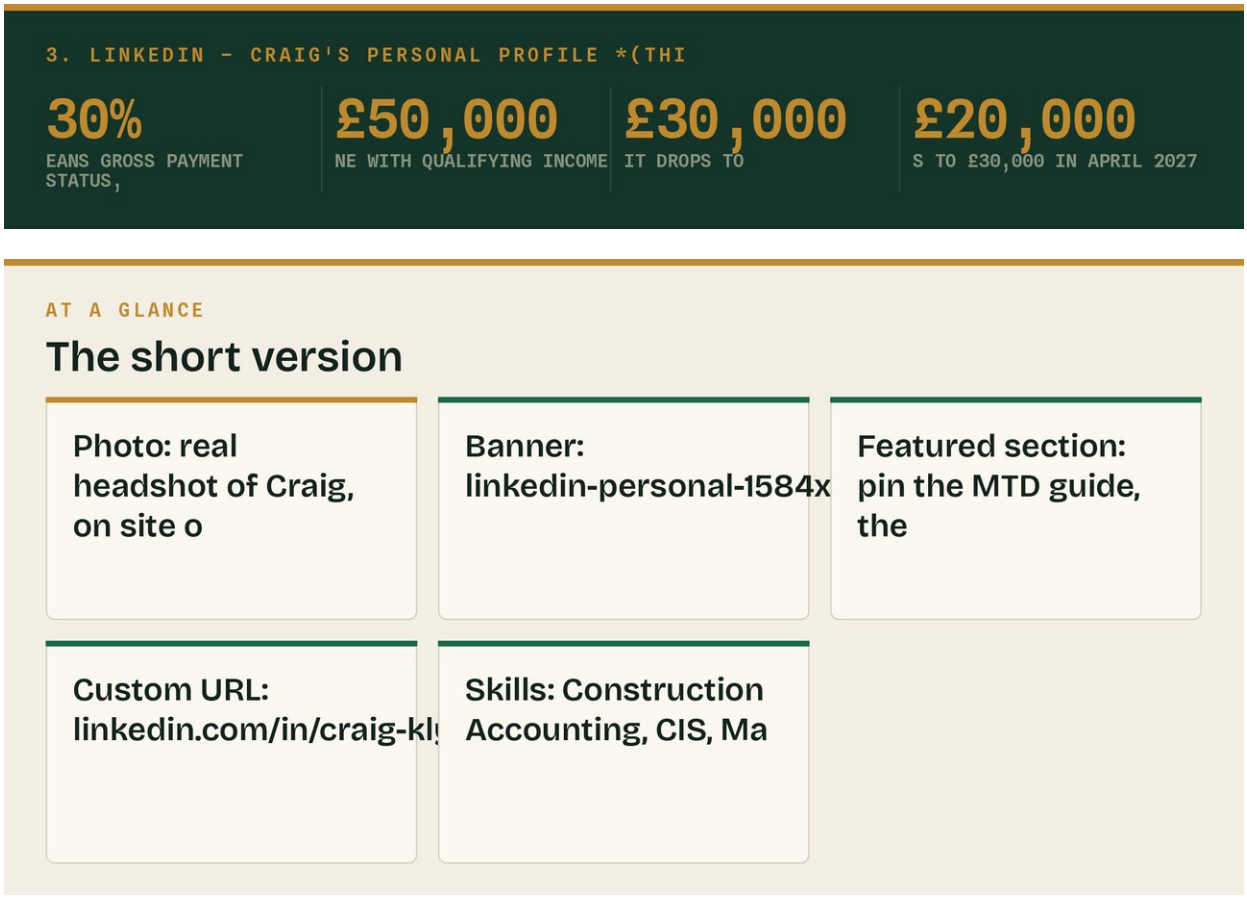

If you run a building firm, or you are a subbie wondering whether MTD has caught you, message me —
I will tell you straight whether you are in scope. No pitch.
